OUR PRODUCTS & SERVICES

We offer end-to-end renewable energy solutions, including installation and maintenance of solar PV systems, water purifiers, street lights, and solar pump sets. Our comprehensive services ensure seamless integration and optimal performance for all our products.

SOLAR HEATER

Energy conservation and optimum use of natural energy resources are the need of the hour. Anaga Solar, a pioneer in solar water heaters, is here to make this happen.

SOLAR STREET LIGHTINGS

Solar street lights are a symbol of a responsible and civilized society. We live in a world where carbon footprints and other types of pollution suffocate our ecology.

RO SYSTEM

Reverse osmosis removes contaminants from unfiltered water when pressure forces it through a semipermeable membrane. We provide the best service.

SOLAR WATER PUMP

A solar pump is an electric pump that runs on electricity generated by solar panels. We are giving the best service in solar water pumps over the year.

SOLAR ROOF TOP

A solar PV rooftop system is essentially a small power plant that is installed on your roof. Three essential components make up the Grid Interactive Roof Top Solar Photo Voltaic (PV) system.
